

Autopolyploid establishment through polygenic adaptation

Arthur Zwaenepoel*¹

¹Department of Biology, University of Antwerp, 2020 Antwerp, Belgium

Data availability

Individual-based simulations for the mixed-ploidy infinitesimal model were implemented in Julia (Bezanson et al., 2017). Documented code and simulation notebooks are available at <https://github.com/arzwa/InfGenetics>.

Funding

I acknowledge funding from the Research Foundation – Flanders (FWO, Junior Postdoctoral Fellowship 1272625N).

Conflict of interest

I have no conflict of interest to declare.

Acknowledgements

I thank two anonymous reviewers and the associate editor for their constructive criticism that resulted in substantial improvements of the present article. I thank Christelle Fraïsse for encouragement and feedback, as well as Quinten Bafort, Felipe Kauai and Frederik Mortier for comments on an early draft version.
